HERMIS AND IRISH LAD MAY BE SHIPPED HERE.

Judge Bryan Wires From New York That Owners of Both Horses Are Favorably Disposed Toward a Trip West.

Judge Frank J. Bryan, steward for the Western Jockey Club at New Orleans last winter and now visiting in New York, wired yesterday to Secretary Hachmelster of the Fair Association that E. R. Thomas, owner of Hermis, had practically decided to send the horse west for the World's Fair stake.

Not only Hermis, but Irish Lad may possibly be shipped, he added, and both are extremely likely starters. He made efforts to have Africander shipped here also, but wires that he had been unable to secure the consent of his owner, as the horse had shown such poor condition of late.

horse had shown such poor condition of late.

Neither is there much chance for The Picket to be here, he added. Judge Bryan has taken great interest in the big stake and promised the association to use the crack perall his efforts to have the crack per-formers of the East shipped here for com-petition. He has interviewed all the owners on the proposition of coming here since his visit to New York.

These two starters would add greatly to the attractiveness of the stake, and it is to be hoped that both will come. The lo-cal racing public would like to have a chance to see the big duo in action. to be hoped that both will come. The lo-cal racing public would like to have a chance to see the big duo in action.

Dick Welles has done so little work of late that it seems clear Bernays is to be the dependence of his stable in the \$50,000 race. His work in the Club Members' Handicap-to-day will have an added sig-nificance on this account.

Willie Sudhoff of the Browns was a vistor at the Fair Grounds yesterday and managed to make a lucky win or two. landed on Wolfram, getting odds of 50 to 1 for a \$4 bet, and pulled down \$300 on the result. He also won a nice bet on Monogram in the opening event.

Former Judge Jack Price was also a visitor at the course, and was entertained in the stand by Judge Maginn. Judge Price was formerly a well-known figure on the local track, where he served for a couple of seasons.

Probably as causeless a foul as could occur was that of which Gallagher was rullty in the fifth race yesterday. The orse was winning easily when Bulley took forse was winning easily when Bulley took him directly across the path of Conundrum, sending the latter to his knees. The shock sent Howell out of the saddle and far onto his mount's neck, yet the boy instantly slid back as his mount recovered, and tried to drive him up in time to get in the money. Gallagher was easily the best in the race, and the incident did not affect his chances as he was going away. Conundrum might possibly have been second, however, as he was coming strongly at the time.

Charles Robbins arrived from Chicago yesterday and brought Jockey Willie Rob-bins down with him. They will remain here, most likely, for the balance of the

REPUBLIC SPECIAL

Chicago, June 17.-The great American Derby will be run at Washington Park tomorrow with at least a bona-fide attempt to prohibit gambling. In the language of Mayor Harrison, whose flat destroyed the hopes of the bookmakers, it will be the first time in history when "the sport of kings will be witnessed free from the vice of kings."

To-day the lowly stable hand was monarch of the little world of lanes and streets of Washington Park. Wearing sweaters and old clothes, the lads took their "legs up" and chuckled to their animals that are to contest for a fortune to-morrow.

Everything will be changed to-morrow. By common consent, Derby Day, with its throngs, is wholly for the devotees of the sport who mass in the stands, gather in the field and leisurely view the vista of the field and leisurely view the vista of track, equipages and racing from the club-house lawn. Fair women, gowned in their chidcest selections, men who make the Derby a dress parade occasion, and the vast crowd, gives little heed to the exarcise lad and the stable hand.

English Lad, the Derby favorite, munched his feed in the Cook stable under the watchful eye of a big negro. Glistening like copper the coat of the animal showed the assiduous care of the stable hands.

animal showed the assistations care of the stable hands.

Small black and green ribbons, just a suspicion of the colors Jockey Dominick will sport to-morrow, were entwined in the mane of the great Requital colt.

Out on a bale of hay near the Schorr stable a little Memphis negro boy lay sunning himself, and dreaming of the happy days at Montgomery Park Moharib thrust his big brown muzzle out of his stall and the lad was up like a flash. "Ah reckon yoh am giad dis dabby will be over to-morrah, Moharib." he said.

Down the lane a bit further "Johnny" Dimont, the genial Canadian, was on guard in front of Fort Hunter's stall. And it was the same all about; all watchful and confident.

OFFICIALS MAKE STATEMENT. The club officials to-day took a positive stand on the betting question. Notice was seared on the bookmakers at Harlem that not only would they not be allowed to do business, but that their room at the track was more desired than their company.

"We don't want you at the track," was the positive statement. "This club is just as good at giving orders as the city police, and it will give them just as emphatically. We will allow no betting. No messengers will be allowed to carry out.

phatically. We will allow no betting. No messengers will be allowed to carry out any racing information."

For all of this, however, no anxious plunger need go without the privilege of betting his money. Nearly half a dozen future books were busy to-day taking in wagers on the Derby candidates. At some of the resorts on La Salle street the police attempted to interfere, but were informed that the money handed over represented margins on doals in grain and oats. The future books will continue to handle money up to the Derby post time. Liverymen assert that the Derby crowd will be smaller than in former years. Where every rig in the stables was engaged last year, there were plenty of conveyances to be had to-day. Enthusiasm was also notably lacking about the hotels, although many out-of-town delegations are expected to-night.

Pittsburg, Pa., June 17 .- St. Louis not only lost the game to Pittsburg to-day, but lost the services of Pitcher McFarland for a time as well. The pitcher in the first half of the fifth

Nothing but hard luck lost for St. Louis to-day. The visitors hit Flaherty unmercifully, but the field work of Pittsburg was something to be admired. Three times they pulled off double plays just when St. Louis looked as if she would make a few runs. when St. Louis 100gen as make a few runs.
The killing double play was in the last haif of the ninth inning, when, with three on bases, one run in and one out, Leach, Ritchey and Bransfield made a double so Ritchey are the eye could scarcely see the

ball.

It was a great relief to Flaherty, who was badly in the air. He had given two bases on balls and hit one man that inning. Wagner made a wierd one-hand catch, and a double play was completed by Ritchey in the eighth inning, when it was needed, as two were on base.

GRADY STARTS RUN MAKING.

Grady scored for St. Louis in the third inning on his own triple and a single by McFarland. In the eighth inning Farrell scored on his single and hits by Beckley and Smoot. Thery Wins James Gordon Bennett Trophy Over German

Course.

EMPEROR SEES THE RACE.

Distance of 348 Miles Is Covered by the Winner in 5 Hours. 50 Minutes and 3

Seconds.

Saalburg, June 17 .- France, represented by Thery, to-day won the fifth interna-tional motor race for the James Gordon Bennett Cup, the great event of the motoring world, from Jenatzy of Germany, the holder of the trophy, by eleven min utes and eighteen seconds, after a magnificent speed test of 348 miles over a difficult and dangerous course. Decaters of Germany was third, forty-

five minutes and ten seconds behind Je natzy. Thery's total time was five hours, fifty minutes and three seconds and Jenatry's was six hours, one minute and twenty-one seconds. Jenatzy arrived at the winning post first, but his actual running time was eleven minutes and eighteen seconds longer than that of the Frenchman.

The weather conditions could not have been improved upon, and throughout the day the enthusiasm ran to the highest pitch. The race was not marred by any erlous accident. It was a vast and brilliant cosmopolitar assemblage that greated the winner of the trophy, and apparently his nationality

and the fact that a German champion had been beaten on a German course in no ing accorded the Frenchman. Emperor William, with the Empress was an interested spectator and was the first to extend congratulations to France. The Emperor at once sent for Baron de

Zuylen, president, and other members of the French Automobile Club, who were presented to their Majesties in the royal presented to their Majesties in the royal box. The perfection of the weather contrib-uted to the success of the meeting, which was attended by a vast concourse of peo-ple who poured in on special trains, in vehicles and on foot from all parts of Ger-

vehicles and on foot from all parts of Germany.

When the fourth round commenced the result of the race was almost a foregone conclusion, though there was still a chance for Jenatzy and this kept up the interest to the finish, when the excitement reached fever heat.

Jenatzy's car was the first to pass the post and received a tremendous reception. Then, when Thery came in sight and dashed down the stretch, the French contingent went wild, and, warmed by the close and brilliant finish, representatives of all nationalities joined in the generous greeting to the winner.

PURCELL WILL BE GREATLY HANDICAPPED IN OPEN MEET.

Entered in Half and Mile Runs To-

Day With Handleaps of Twenty-Five and Sixty Yards. Jack Purcell, the English runner, who as lately been reinstated by the A. A. U., will make his debut in St. Louis to-

day, as he will start in the half and mile runs at the Triple A open handicap meet for the benefit of the vacation playgrounds at the club's grounds in Forest Park this at the Colissum in March Purcell was barred by the A. A. U. from running at

that meet, as he was said to be Tinkler, a professional runner. At that time he was a member of the Missouri Athletic Club and was to have run under their colors. Since that time he has withdrawn from the M. A. C. and has been in communication with English athletic officials in regard to his identity. When he was proven to be J. C. Purcell of the Manchester Harriers of England he was at once put in good standing.

He will have a chance to-day to show what he claims he can do, as he is great ly handicapped in both the half and mile runs. In the former he will be put twenty-five yards behind scratch, and in the IF I FAIL TO GURE ANY CANCER OF TUMOR

Any lump in a Woman's Breast is Cancer and if neglected will always poison deep glands in armpit and kill quickly. Address DR. AND MRS. DR. CHAMLEY & CO. Offices 201& 203 N. 12th St., St. Louis, Mo.

mile the scratch man will have a lead of sixty yards.

Purcell, however, does not seem to think very much of the result, and says the finish will be as easy as if he were on scratch mark or better. The showing that he will make will be eagerly watched, as he has not done any real running in this city.

The first event will begin at 2:20 o'clock. A feature will be the relay race by teams representing the Triple A, Missouri Athletic Club, Y. M. C. A., First Regiment A. A., and Christian Brothers' College.

AN INVISIBLE ENEMY TO HEALTH

· Malaria is a slow poison, but the most stubborn and deeply rooted when it takes possession of the sys-We breathe into the lungs the polluted, germtainted air; the little microbes then enter into the system, and feeding upon the red corpuscles of the blood, soon reduce this vital, life-sustaining fluid to such a weak, watery state that the patient becomes listless, pale and anomic, and men-

pressed. Malaria may begin with slight rigors or chilly sensations, followed by fever and thirst; but gradually all parts of the system are affected; the liver becomes torpid, and dark or yellow splotches

About fifteen years ago I suffered with bolls, and took a course of S. S., which built me up and entirely cured me of the bolls. Three years ago I suffered with Malaria, and remembering how much good S. S. had done me. I determined to try it again. I am glad to say that the results were all I could have desired. Since then system are affected; the Malaria. Last summer I spent most of the time on Tombigbee bottom having timber cut. dark or yellow splotches appear upon the skin; the stomach fails to properly digest the food,

and there are frequent headaches, dizziness, bad taste in the mouth, constipation and a general worn-out, tired feeling that only a sufferer from Malaria can describe. Other and more dangerous symptoms are apt to follow where this disease is neglected, such as nervous prostration, palpitation, sleeplessness, enlarged liver, weak kidneys, boils and risings and dangerous-looking sores and abscesses. Malaria is all the more dangerous because of its insidious and stealthy nature. It is an invisible atmospheric poison, and the germs and microbes that are lodged in the blood are propagating and increasing in number all the while, clogging the circulation and gradually wrecking the health.

What is needed in Malarial troubles is a blood purifier and tonic. S. S. S. purifies the germ-infected blood, tones up the stomsch, improves the appetite and invigorates the entire system. It stimulates the torpid,

been polluting the blood and clogging the circulation. S. S. S. contains no strong minerals, but is strictly a vegetable remedy, a blood purifier without an equal, and the greatest of all tonics. If you have any symptoms of Malaria, write us, and medical advice will be fur-
